Batch - B3

Name: Lakshi Srivastava

USN: IBM18CS090

Ques: Create a topology and stimulate sending a simple PDU from source to destination using hub and switch as connecting device.

Things we learnt :-

Hub is operated on a physical layer, while switch is operated on data-link layer.

Hub is a broadcast device while switch is a unicast device.

A simple PDU (Protocol Data Unit) is sent from source to destination using hub and a switch as connecting devices.
